### What I Know About Hardware and Why Times are Hard Here.

1. The prevailing habit of living beyond the income. 2. The habit of buying goods on long time at high prices. 3. The importation of many million dollars' worth of goods that could be produced at home. 4. The low prices of cotton. 5. The communistic sentiment which prevents foreign capital from developing the state, are the causes. Texas has served notice to all railroad builders that she has an autocratic commission with powers to confiscate their property. She has served notice to foreign money lenders that land, the only available security, must be defended in court against confiscation. Foreign jobbers and manufacturers have been duly notified that all credits in Texas are based solely on the honor of her merchants, for our laws encourage fraud and protect it. Every one going into business in Texas will soon learn that our laws are worthless for collection of debts and that 95 per cent of his customers can do as they choose about paying. The only remedy against hard times is to remove the causes. Do you ever buy a scale? I keep the spring balance for 25 cents; the even balance tea scale for \$1.25; the Brass scoop dial tea scale for \$1.75; the union counter scale from \$4 a piece up. I also keep the Fairbank and Howe union and platform scales from 400 pounds up to 2500 pounds. The Fairbank cotton beams, Fairbank and Victor wagon scales. The Safford counter scale which has all the latest improvements; the postal which designates the weight as well as amount of postage due on a letter, book or package. The latest wonder is the Acme self-computing scale which both weighs and computes the amount due you. There is no better assortment of scales in Texas than mine and my prices are bottom. ED. ### THEY MUST GO.

Pianos, Organs and Other Musical Goods at Big Discounts and on Your Own Terms.

There never was a time so favorable for buying as now. The period of stagnation just closing has all along been in favor of the buyers. In the matter of pianos and organs anyone desiring to purchase either have such a chance now as will not occur again maybe for five years. J. B. Payne has an immense stock of fine instruments, pianos, organs and small musical goods and he will put them at such prices and on such terms that the closest man who wants an instrument will be obliged to buy. If you want a fine piano or organ he will sell you one on your own terms. Musicians organizing brass bands can get a complete outfit very low. Payne means business when he says he is bound to sell.
